## SCRUM Meeting 3 for Project 3 (OneShot Car)

Prepared by: Lily Wang

Meeting Date: 04/06/2022

## Meeting Attendees

7. Lily Wang
8. Roshin Lal
9. Brandon Sullivan

## Meeting Agenda Items

- Finishing up/checking over MVP and what else is needed
- Usability and technical testing
- Putting the backend and frontend together

## Status Update Since Last Meeting

Accomplishments:

- Learned how to use Tailwind CSS to format user interface
- Linked backend to frontend

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Code user upload feature for uploading an image in Python	Roshin	yes
Figure out how to pull the usable data through the API in Python	Brandon	yes
Put a Text-to-Speech button in the corner of every page	Lily	yes
Create place for image insertion	Lily	yes
Link results from APIs to results page (Available Trim)	Brandon	no
Link results from API to Location	Brandon	yes
API link to make, model, year results	Roshin	yes

---

Create detailed results page	Lily	yes
Format results page	Lily	no
Format submission page	Lily	yes

## Before The Next Meeting

### Plans:

- Finish up MVP for Sprint 1 - ensure everything is constant and working
- Agree on next sprint's MVP

### Task Assignments:

Task Description	Assigned to
Create GitHub release for MVP after Sprint 1	Lily
Format results page	Lily
Link upload feature to frontend	Roshin
Connect picture upload to API code for queries	Roshin, Brandon
Create GitHub release for MVP after Sprint 1	Lily
Connect Flask app with Heroku	Brandon

## Minutes from Previous Meeting

From SCRUM meeting 2, the previous meeting, we went over what we had done since the previous SCRUM meeting, which included finding and utilizing a working API with our Python files. Also, we finalized on a frontend styling template, using Tailwind CSS to format all the html files. We agreed to focus more on making sure the files work with our APIs, as well as user input. The MVP needs to have at least one feature pulled from the API working, so that is why we agreed to focus our energy on that. Since our next scheduled meeting was planned for the 6th, all the team members understood that most of the sprint tasks needed to be finished by the time we had our SCRUM meeting 3. In total, our meeting was 20 minutes long. The plans for next sprint's SCRUM meeting dates are listed previously in the document.
