SCRUM Meeting 2 for Project 3 (OneShot Car)
Prepared by: Lily Wang
Meeting Date: 04/29/2022

Meeting Attendees

4. Lily Wang
5. Brandon Sullivan
6. Roshin Lal

Meeting Agenda Items

- Backend progress with the APIs
- Accessibility feature integration into all pages of the interface
- Adding the dyslexia-friendly font to all pages pre-toggle
- How to display search history

Status Update Since Last Meeting

Accomplishments:
- Fixed an issue with backend (possibly a merge issue)
- Created slides for the final presentation

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Code toggle button for dyslexia font in Python	Roshin	no
Create History page	Lily	no
Link results from API to Location	Brandon, Roshin	no
Link results from APIs to results page (Seating)	Brandon, Roshin	yes
API link to Detailed Page (Engine Type)	Brandon, Roshin	no

Before The Next Meeting

Plans:
- Work on final presentation slides
- Figure out how we want to display the rest of the information on the results page

Task Assignments:

Task Description	Assigned to
Code toggle button for dyslexia font in Python	Roshin
Create History page	Lily
Link results from API to Location	Brandon, Roshin
API link to Detailed Page (Engine Type)	Brandon, Roshin
API link to Detailed Page (Engine Type)	Brandon, Roshin
API link to Detailed Page (Safety Features)	Brandon, Roshin
API link to Detailed Page (Seating)	Brandon, Roshin
API link to Detailed Page (Capacity)	Brandon, Roshin

Minutes from Previous Meeting

From the previous SCRUM meeting, we first discussed what was immediately due (the expert panel report), and how far along we were with recording all of our interviews and the design moves we should implement based on the sum of the interviews. After we established that we were on track with the report, we moved on to how far along we were with the project itself, including the accessibility feature. The accessibility feature works on a single page, but we still needed to figure out how to toggle this feature using CSS and possibly JavaScript. Next, we moved to the other agenda items such as the website formatting, which did not take long to discuss, and then the API pulls. We agreed to first simply print out the list of results and then figure out what we wanted our user to see from there. In total, our meeting was 15 minutes long. Originally, we had planned our second SCRUM meeting for sprint 3 to be on the 28th. However, since every member of the team has exams on either Thursday or Friday, we decided to push our meeting day to Friday night. The next meeting date decided upon is 04/29/2022.
